COL. JOHN BUCHANAN.

After a long illness, superinduced by a fall and the infirmities of old age, Col. John Buchanan at last sleeps with his fathers, after a life of honor, industry and sobriety. The end came Friday morning, after he had attained the ripe and unusual age of 82 years and four months, and though it had been long expected the loss is keenly felt by his loving family and the friends whom he bound to himself with hooks of steel.

At Wells River, Vermont, March 6, 1815, Col. Buchanan was born of sturdy Scotch parents, who had married in Glasgow shortly before coming to this country. When he was 25 years old he left the mother State and went to Tennessee, remaining there six years and then came to Kentucky, locating at Crab Orchard where he followed merchandising for 20 years most successfully. Finding the store too confining, he gave up the business and went to farming, and at that too he was successful, accumulating and increasing both his bank account and additional acres yearly, until he owned a fair sized county. He retained his residence in town and his pleasant home was always the resort of friends, who ever found a welcome within it.

Col. Buchanan did not marry till late in life and then chose most wisely and well. In 1861, he tied the knot, Miss Jennie Burch, who though nearly two score years his junior, made him a wife in every sense of that loving word. She was a great-granddaughter of Gov. Whitley, who built the first stone house in Kentucky, and like him she is possessed of a remarkable fund of sound sense and superior management. Eight children blessed their union and all are living save one, the survivors being Mrs. John A. Haldeman, wife of the business manager of the Louisville Times, Mrs. Eva M. Addams, wife of A. Addams, clerk of the court of appeals, Misses Jean and Margaret Buchanan and John A. Buchanan, bookkeeper of the Louisville Times, and Andrew and Burch Buchanan, excellent children all and an honor to their noble parents.

Originally a Scotch Presbyterian, Col. Buchanan joined the Cumberland Presbyterian church at Walnut Flat and was for many years a faithful member. His religion was not confined to church forms, however. He believed and practiced the 13th Chapter of 1. Corinthians and his life was a full demonstration of the last verse, which says: And now abideth faith, hope, charity, these three, but the greatest of these is charity. He was in very truth the poor man's friend for no one of them ever appeared to him in vain or left his door empty handed. He has given away a good sized fortune, but each credit was placed upon books which meths nor the corroding touch of time can erase. He laid up treasures in Heaven. Henceforth it will be his to enjoy it there forevermore.

Though always a leader in his section and could have at any time been elected to any office within his constituents' gift, Col. Buchanan stuck to the principle that the post of honor is the private station and never sought political preferment. He was a democrat of the purest type and the valiant service he rendered the party was from no personal motives but an honest belief that in its principles were contained the greatest good for the greatest number.

Besides a good estate, Col. Buchanan leaves an insurance policy on his life for \$5,000, which he had carried for 30 years at \$200 a year.

Saturday afternoon at the hospitable old mansion, in the presence of many warm friends, Rev. S. M. Logan preached a most comforting funeral sermon and Rev. Ben Helm prayed fervently that the hearts now crushed with the weight of sorrow for the loving husband and indulgent father might look beyond this vale of tears and find consolation from Him, who has promised to be with His children in every hour of need. The procession to the cemetery on the hill top was then begun and as it slowly wended the winding way, the sobs of the bereaved were heart-rending. The earth soon hid from view all that was mortal of the grand old man and amid a most affecting scene the sad party broke up and every heart went

out in sympathy for the wife and children so severely bereft. May they find consolation and comfort in the promises, in which their loved one trusted, and thank God that he was so long spared to them upon the earth to guide, protect and cheer them.

A man of strictest integrity and rugged honor, scornful of mean action and incapable of committing one, Col. Buchanan goes to his reward, leaving the rich inheritance of a good name to his children and noble deeds for them to emulate. His days were long upon the earth: his virtues were many, his faults few. Peace to his ashes!

The Louisville Times pays this deserved tribute to his memory:

The death of Mr. John Buchanan, Sr., at his home in Lincoln county, removes another of that rapidly dwindling band of sturdy, old-time Kentucky gentlemen whose dignity, courage and honorable career have spread the fame of Kentuckians throughout the world. Mr. Buchanan was one of the pioneers in his section, beloved by his friends and highly respected by the entire community.

RELIGIOUS.

Peter Vinegar, the eccentric Negro preacher, preached a sermon to raise money with which to bury his wife and had to do it on "A D—d Hot Day." July 2nd.

At Lexington the salvation army has been ordered to quit preaching on the streets, but as our city fathers are more God fearing men, the Lord's Ministers here need fear no interruption.

Eld. R. Lin Cave, of Nashville, a prominent preacher and educator, has been chosen president of Kentucky University. He was born in Orange county, Va., and served through the war under Gen. Lee.

A. A. Warren, treasurer of the Starford Christian church, read his report Sunday which showed that he had received \$796.46, \$73.21 of which was for Foreign, \$17.60 for Home and \$35 for State missions. After paying out stated amounts there is left a balance due, after deducting cash on hand, of \$448.49. There are 340 members but only 152 have paid anything, their contributions ranging from 1c to \$50.

Rev. George O. Barnes and Mrs. Marie continue to recall happy memories to those who first embraced their sweet religion and to emphasize to others the wondrous story of God's love, which never changes and never ceases. The preaching and the music are both divine and the crowds that gather at the court-house nightly go away with the feeling of having received a substantial blessing. The meetings will continue till Friday night.

The grand jury at Louisville created a decided sensation by ordering true bills against the three members of the board of public safety, Col. R. J. Tillman, Daniel E. O'Sullivan and Charles A. Wilson—Chief of Police Thomas H. Taylor and Private Policemen Hickey and Cunningham for misfeasance in office in not suppressing pool rooms.

A paper called Dixie, which is published in Atlanta, says that 39,000 Negroes have been graduated at a cost of \$100,000,000 from colleges for Negroes which are supported by Northern money in the South. It also says that there are many thrifty, prosperous Negroes everywhere in the South who are doing well.

Thirty-two persons died Sunday from heat in the cities of Chicago, Cleveland, Cincinnati, Detroit, Nashville, Dayton, Lima, O., Jackson, Mich., and Louisville. According to official records the temperature in Louisville was higher than at any other point, being a little over 100.

The Kentucky Citizens' Building and Loan Association made an assignment Friday. This is the fourth to follow the adverse appellate court decision. Liabilities and assets are estimated at \$210,000.

Life must be horrible in a Catholic convent, when girls will risk limb and life to escape. Two jumped from the 4th story of one in Cincinnati, but were immediately taken charge of by the police.

Thomas Rogers, of Elwood, Ind., was compelled to have one of his feet amputated as the result of an X-ray examination made some months ago. The rays caused the foot to decay.

All the street railway employees at Houston, Texas, went on a strike and thousands of people attending patriotic celebrations in the suburbs were forced to walk home.

Four men attacked Capt. Gaines and Sergt. Gordon, who are on duty at Franklin with the State Guards during the Dinning trial. Several shots were fired.

Plutsky Constable James King, of Harrison county, cowed and drove off a mob of about 25 men who attempted to take two prisoners from him.

James Burgin and wife were murdered in their beds near Bentonville, Ark., by supposed robbers.

LANCASTER.

Our people have been very busy for the past few days hunting a cool place.

Miss Mary Hughes has returned from the Cincinnati Conservatory of Music. J. F. Robinson, Sr., is much better.

Rice Benge has put some new vehicles in the stable, which he leased from Judge W. E. Walker, and, with W. D. Walker, as manager, everything is moving smoothly on.

Wm. Roiston was arrested on Saturday and fined for being drunk and driving recklessly, after which he drove to the depot where a locomotive demolished his buggy, he escaping with a slight bruise.

S. D. Rothwell is a candidate for the Legislature on the pistol question alone. He wants to make it a penitentiary offense to carry a pistol, very properly claiming that a man who carries one is either malicious or is a coward.

Our people never will cease hunting gold bricks. Again a number of them have lost heavily in the Building & Loan Associations, which have recently failed. They should put their money in a hemp or tobacco factory at home where they can supervise it.

Friday night at McCrory, Mike Turner, a brother of S. D. Turner, who is in jail for killing Sebastian, was stabbed three times by Charley Denny, colored. The wounds are not fatal. Denny has not been arrested. The trouble arose over the payment of some money.

Patterson and Ward said, "Let There Be Light," and the electric lights were turned on Saturday night. Their bright scintillations called out the entire city and the people are delighted. We needed more light, but some of our citizens need a different kind of light.

Edison's Projecting Kinetoscope, the most marvelous of electrical wonders, showing photographic scenes in life size, life motion and expression, so minutely perfect that they appear to be real, will be exhibited at the court-house next Friday night, under the auspices of the Ladies' Aid Society. Everybody should take advantage of this opportunity to see life-like parades, fast trains and many wonders which they can never see in reality.

James Tudor, of Madison county, was arrested on Friday and lodged in jail here by John Broadbuss, a constable of that county. He is another brother-in-law of S. D. Turner, who is in jail, charged with the killing of Sebastian, and is said to be the unknown party who fired and made his escape during the Turner-Sebastian fight last Monday, in which three brothers-in-law put eight bullets into the body of Marion Sebastian.

A large crowd was in town Friday from this county and Madison to attend the trial of S. D. and Jack Turner. At 1 o'clock Sheriff Robinson, with an armed guard, conducted the prisoners to the court-room, which was immediately filled by a rushing, surging throng of relatives and friends of both sides and many curiosity-seekers. Trouble was averted and it is now believed that there will be no more bloodshed. The defense filed an affidavit stating that the defendants did not believe that they could get a fair trial before Judge Burnside. After considerable argument by counsel, the judge retired from the bench and Squire J. A. Baker, of Paint Lick, was agreed upon to hear the case, beginning to-morrow, Tuesday. About 70 witnesses were recognized and the trial promises to be very sensational.

David Thompson, a well known farmer and trader, tells of a lot of cattle which he bought last November, some of which have characteristics very much like some politicians. He says when he bought them there was one long-faced, thin steer that looked like a free silver democrat after the election. He did not believe that he would do any good, but now he has great cakes of fat all over his body and is one of the most valuable animals in the lot. Another he calls a free turnpike steer, because he tears down fences and goes where he pleases; he has hair in his forehead six inches long and will make a tough piece of beef. He has one which he calls "John G.," which he always had to pet and hire and fee with dainty meals. On one occasion he got in with 82 other cattle and was detailed, when he returned to his lot and agreed to eat any kind of food. Another steer which he calls "Bollivar," is the most noted steer in the bunch. When he bought them he was a good looking animal, but Thompson always said there was something wrong with him. When purchased he weighed 940 pounds, but with the best treatment he has lost flesh until he only weighs 730 pounds. An investigation revealed the fact that he chews his cud two ways.

Ernest Ills, a 14-year-old boy, who was given a sentence of one year in the penitentiary at Richmond, and pardoned by Gov. Bradley, has been re-arrested, charged with stealing two bushels of blue grass seed from a farmer.

QUEEN & CRESCENT.

THE CASH SYSTEM,

Beginning July 1, 1897, believing that it will be more satisfactory to both buyer and seller. No bad debts will accumulate, consequently we can sell goods cheaper. It will take much less capital, our expenses will be less and there is every reason why the cash system will prove satisfactory. We only ask you to try it awhile and if you find it is not to your advantage, we will not kick on your buying from merchants who sell on credit. We are satisfied we can sell you goods from 10 to 25 per cent. cheaper than the credit men and this should certainly be an inducement to you. Very truly,

JUDGE BURNAM, republican member of the court of appeals from this district, had a street fight at Richmond Friday, or more properly possibly, it might be called a street whiff. The trouble grew out of the fact that Burnam prevailed on some over zealous republican and bolted directors of the Madison National Bank, of which he was president up to his candidacy, to subscribe \$500 of the institution's funds to aid in his election. Settlement day came last week and ex-Sheriff N. B. Deatherage, who is a leading democratic director, objected to such use of the funds. This precipitated a quarrel and the result was that when the men met on the street afterwards, Mr. Deatherage landed two vigorous blows with his fist on the appellate judge's anatomy, before the judge could do anything more than protest. Burnam is about twice as large as the ex-sheriff, but the latter is an old Confederate soldier, and would fight his weight in wild cats, especially over such an outrage as the appropriation of the bank's funds for such a purpose. It is rather a high-handed business to whip a judge of the court of appeals, but such things have to be done occasionally and it were well that it were done so nicely and so quickly.

Two companies of State troops stood guard, while the Negro, Tol Stone, was tried for attempted outrage on Miss Moore at Glasgow. He was given seven years, the extreme penalty. He was also tried for attempting to burn the house the lady was in at the time and for that he was given 12 years, making 19 in all. Immediately after the sentence, he was hurried off to Eddyville and danger of his lynching was over. The people of Barren held an indignation meeting Saturday night and bitterly condemned the circuit judge, Commonwealth's Attorney and sheriff for the outrage in calling for troops before other remedies were tried and until the posse comitatus was exhausted. They declared that there was no need for troops and inveighed very strongly and very properly against the continued call upon the military arm of the government.

THE charge that McKinley's managers paid the Negro delegates from Alabama \$27,000 to drop Reed is corroborated by the fact that Hanna, who made the deal, can help himself to anything that McKinley has got, and Wm. McKinley Osborne, the man who distributed the money, has been appointed consul general at London. McKinley, who is said to be a good old Methodist, evidently believes that everything is fair in politics. It can be said to his credit, however, that he pays the debts he incurs, even if he has to take the money from the pockets of the people.

EVAN SETTLE tried to get the journal of the House corrected the other day, so as to conform to constitutional methods, but he got set down upon by the czar and his minions for his impertinence, not, however, until he had given them a piece of his mind that will ring in their ears for some time, if they have any consciences. Mr. Settle demonstrated very fully in his speech that the 7th Kentucky still holds the sway for oratory even in Mr. Reed's House.

THE last turnpike in Woodford county has been freed at a cost of \$40,000 for all. There are 200 miles and the original estimate of their cost was \$75,000. The contracts have been made on the supposition that the bond issue will carry in November. The county is now carrying a railroad debt of about \$75,000, so it will be seen that taxes will be severe there for some time to come.

ON account of the failure to agree on a wage scale all the union iron and steel works around Pittsburgh are closed down, making between 75,000 and 85,000 men idle. And thus does prosperity prosperate! Open the mills not the mints was the war cry of the republicans last year. D—n the mills and the mints is the shibboleth this year.

ALTHOUGH statistics show that grand army men are dying at the rate of 100 daily, the pension list is increasing at a greater rate. The entire pension business is a fraud and a scandal that grows and increases the further we get from the war. The old soldier vote must be bought, the politicians think, but it is a mighty costly purchase.

DEBOE isn't so hot. His endorsement is far from being an open sesame to office. In fact, he has gotten turned down oftener during his short experience than any man in the business. The Washington Post emphasizes this as follows: "His choice for Collector of the second district was E. T. Frank, but the appointee is Thomas Jefferson Yandell. He wanted George Leibberth made collector of the 6th district. D. N. Comingore got the place. He had no voice whatever in the selection of J. W. Yerkes as collector of the 8th and Sam Roberts as collector of the 7th district, these appointments being the redemption of ante-election promises. Senator Deboe did not want Leslie Combs made pension agent, but in this, as in the other cases, Deboe had to sacrifice his individual preference and accept what was provided for him." Deboe seems to be held at the same figure at home and abroad. He is very small potatoes and few in a hill and the administration has sized him up correctly.

THE idea of so-called democrats and real, stinking, mean republicans conferring on a fusion in the election of a candidate for the appellate clerkship is enough to disgust honest democrats with the National democratic movement and drive from its support even the few suckers who were caught by the McKinley Aid Society movement last year. Let 'em unite, however, and mingle to their heart's content. Shackelford will be elected all the same by at least 25,000 majority and the bolters will find again that they have lost all, including the little honor that attaches to such acts as they have been guilty of.

Lo the poor Negro! He is not to be given even a post-office, the postmaster general having decided that colored postmasters shall not be appointed to offices filled heretofore by white persons, holding that the matter has a social as well as a political side, and he will be governed accordingly. The p. m. g. is right. We do not need any Negro postmasters in this country, though his party should not have gotten their votes by pretenses that the colored folks were good enough for any office, appointive or elective.

WHILE the rest of the United States was smothering under the most intensely hot wave that had swept it for many a year, Leadville, Col., was celebrating the 4th of July with a snow storm, which arose to the importance of an inch in depth. Who dares deny that this is a great country?

POLITICS

Senator Teller says he will not offer the amendment to reduce the tax on distilled spirits from \$1.10 to 70 cents a gallon.

William Woodville Rockhill, of Washington, was named as minister to Greece, Romania and Serbia. Arthur S. Hardy was named as minister to Persia.

John Russell Young, well known in the newspaper fraternity, will be the next librarian of Congress in charge of the new and magnificent Congressional library building.

No republican contradicted Senator Vest when he stated in the Senate that the duties in the pending tariff bill are 57 per cent. higher than the duties in the McKinley bill.

Gen. John B. Gordon, the gentlest and bravest of men, has put a quietus on the boom he was having for governor of Georgia, by saying that under no condition will he accept office again.

The Ohio gold democrats have served notice on Mr. Hanna that their partnership of last year has been dissolved. They tired of having their currency promises liquidated with tariff legislation.

Hon. W. D. Bynum will come to Louisville to address the State convention of so-called democrats July 14. It is a pity the law against throwing rotten eggs at speakers has gone into effect.

Judge Barham has appointed Capt. W. C. Curd, of Somerset, G. C. Moore, of Williamsburg, and H. D. Gregory, of Grayson, U. S. commissioners. The latter is a son-in-law of Circuit Clerk James P. Bailey.

While the outlook is uncertain, there is every probability that the Senate will pass the tariff bill this week. Considerable discussion is expected. If the bill goes to the House the programme is to send it immediately to conference.

At the final caucus of the republican Senators, it was decided to report no anti-trust amendment, to withdraw the original propositions for a duty on tea and for an increased tax on beer, and to provide for a tax on bond and stock transactions.

The Senate by a decisive majority, decided to incorporate the reciprocity feature in the bill, two democrats, Gray and Morgan, supporting the proposition and voting with the republicans for its adoption. And thus does Jim Blaine's spirit go marching on.

So anxious are they to get through with the tariff grab bill that the Senate devoted the 4th of July to its perfection. A vote on the bill was expected Saturday, but Mr. Allison had aroused the opposition by an amendment giving a bounty for beet sugar. He tried to withdraw the amendment when he found that it promised to de-

lay the bill indefinitely, but Populist Senator Allen renewed it.

The Louisville Times, which is always right or wrong one, says very pointedly: "Notwithstanding Attorney General Taylor's assertion, the gold democrats in the State who advocate fusion with the republicans on the clerk of the court of appeals are just as scarce as those in Louisville who favor Mayor Todd's combination scheme for procuring local offices. The democrat who lent himself to either would incur the contempt of his friends."

Hon. J. B. McCreary, of Richmond, will have to run for Congress in his district in order to redeem it from republican domination and restore it to the democratic column. The district is now misrepresented by a republican member of Congress who is helping to pass the Dingley tariff tax and to saddle on his constituents enormous, oppressive and unnecessary taxation. McCreary was one of the best Congressmen Kentucky has ever had and should be elected by all means. And he will be if he runs.—Campbellsville Times Journal.

THE Mrs. Vernon Signal says that W. P. Walton, Jr., is the finest boy in Lincoln county and his mother and father are satisfied that Editor Maret is a man of great amity and general understanding in the neighborhood. DR. N. H. MCKINNEY returned from Louisville Sunday morning, where he has been attending a dental college. He brought along his sheepskin and is now ready to hang out his shingle as soon as he can find a location which suits him. THE Richmond Register of Friday published a highly complimentary notice of Mr. J. M. Alverson, a compositor in this office, together with a good picture of him. THE INTERIOR JOURNAL never had a more faithful employee than he nor one that it thought more of.

LITTLE W. P. JR., was the recipient a few days ago of a beautiful cake made by that blue ribbon maker, Mrs. Mattie Alverson, of Richmond, who has taken every premium in that line at all the fairs in her section for years. The sample is proof that she only got her just deserts in the awards. MR. E. H. BEAZLEY left Friday for Fairmount, W. Va., to take a position as traveling salesman for the Wrought Iron Range Co., of St. Louis. "Lige" is one of the best boys in the country and Stanford people dislike very much to give him up. His brother, Jack, will succeed him at Farris & Hardin's. MESSRS. GEORGE E. STONE and F. P. Combest, of Casey, were here Friday. The latter is president of the Commercial Bank of Liberty and he told us that that institution was getting along swimmingly. A three per cent. dividend was declared July 1 and nearly \$400 was carried to the surplus fund. Some of the stock has recently changed hands at \$110.

His increasing business made it necessary for him to enlarge his baking facilities. FREE.—Chance at an \$85 music box, with every purchase of 25c worth of jewelry from our elegant line, or \$1 worth of other goods. Tanner Bros., McKinney. CLOSED DOWN.—Mr. John Traylor has closed down his distillery for the present and his Storekeeper-Gauger, Mr. J. N. Carter, is enjoying a rest this hot weather. GIVENS, infant son of Mr. and Mrs. J. H. Barker, and grand-son of Mr. James Walker Givens, died near McKinney Thursday night and was buried in the Hustonville Cemetery Friday afternoon. NOTICE.—W. J. Romans & Co., Lancaster, are closing out their large stock of buggies, surreys, phaetons and road wagons. You can save from \$5 to \$25 by buying anything you want in the vehicle line from them. IN remitting for his paper, Mr. Lee D. Sutherland, of Stewart, Mercer county, says: "I sold my suspenders to pay my subscription and my pants are now kept in place with binder twine. Would offer you confidence in part pay but haven't it." A SEVERE wind storm did considerable damage on Mr. J. K. Baughman's farm near Hustonville Thursday night. Thirteen trees in his yard and a good deal of fencing were blown down while his wheat and some hay that had been recently cut were scattered all over his large farm. THE Knights of Pythias banquet at the St. Asaph Hotel next Thursday night will be a big thing. A large number of visitors from various lodges have signified their intention to be present. Nothing has been left undone that would conduce to making it a memorable occasion. A HORSE belonging to a German ran away at Kingsville the other day and dashed into the tunnel with the wagon which he was pulling. He stopped about 200 feet from the entrance where he was caught and brought out. Fortunately it was not train time and no damage was done either the animal or the wagon. THE regular meeting of the city council was held Thursday night, when Marshal O. J. Nowland reported that he had collected \$2,986.43 of the total tax of \$3,000.00 due the town. The time for adding the penalty began July 1 and it was not extended. An order was made to pay the Water, Light & Ice Co. \$1,500 for its bill for six months. Anderson Carr having failed to put up the money for his liquor license the order granting it was rescinded. WHILE other banks had to strain a point to declare the regular semi-annual dividend of 3 per cent., that solid institution, the Hustonville National Bank, paid 4 per cent. just as easy, its gross earnings being at the rate of 16 per cent. Its capital is \$50,000 and its earnings were \$4,034.91. The surplus is now half as much as the capital. President Dr. Ed. Alcorn and Cashier J. W. Hocker run the bank most successfully and most economically.

Go to Extine & Co. to get your Summer suits made cheap. OBELISK flour is the best in Kentucky. J. C. Florence. TRY our "Gold Camel" Tea, fine with ice. Warren & Shanks. ICE cold ice cream soda water, pure fruit syrups at John H. Meir's. SHINGLES and rough lumber cheap for cash only. H. J. McRoberts. I NEED money to pay my debts and I must insist that you call at once and settle your account. This means you if you owe me. Mrs. Kate Dudderar. SEVERAL of the boys here helped the Hustonville base ball club defeat the second nine of Danville at that place Saturday afternoon by a score of 15 to 11. J. T. SUTTON asks us to correct the report, which in some way got circulated that he was closing out his undertaking business at Hustonville. He has no idea of doing such a thing. A HURGLAR called at Mrs. W. S. Warren's about 4 o'clock Sunday morning, but some members of the family were awake and the scamp was scared away before he got anything. THE semi-annual settling time is now at hand and I trust all those who owe me will call and settle. Please do not wait for me to dun you, but come up like a man and settle. H. C. Rupley. CONTEST.—Mrs. J. M. Bruce will give an eloquent contest at Elizabethtown next Friday night, which promises to be a notable affair. Misses Lucile Clark, of Boyle, and Ella May Saunders and Ida May Adams, of Rockcastle, are among the contestants. "THE wheat crop in this county," said Mr. D. W. Vandever yesterday, "is the best I have ever seen, and I am 75 years old. The crop proves that it matters not what kind of seed is sown. There was no good seed last year and I, like others, had to use a very inferior article. The result is both a good grain and a good crop."

PICNIC.—Mr. Bedell Chancellor, who goes everywhere and makes the most of life, tells us that 1,500 people at least attended the Broadhead picnic Saturday and that everybody had a good time, with plenty to eat and oratory galore. Among those who made patriotic addresses were Messrs. R. G. Williams, the next county judge of Rockcastle, and F. E. Bobbitt, who knows how to make the eagle scream and catch the ear of the populace. ASSIGNED.—T. M. White & Co., of Corbin, dealers in shoes and hardware, have assigned. Mr. White is an ex-Lincoln county man, and his misfortune is regretted by his many friends here. He was also manager of W. W. Withers' stock of furniture and undertaking goods at that place, but his assignment will have nothing to do with that portion of his business. However, Mr. Withers has decided to close out his business there. Mr. White's wife was the company of the above firm, whose assets were \$600 and liabilities \$475. CIRCUIT court is still with us and numerous orders are being made in equity cases, and many of them will disappear from the docket after having been in court for many years. Saturday, James Humber, a Negro, was tried for stealing hymn books and a lamp from Sugar Grove school house, but he induced some of the jurors to believe his story that he had bought the lamp in Lexington and the hymn books with a coat he had and the result was a failure to agree, eight being for conviction and four for acquittal. Squire W. H. Kinnaird sued Lewis Dudderar's estate for \$3,600 for wheat that both claimed, but strange to say the jury gave a verdict against the plaintiff for \$3,500. THE trial of Col. Welch for assault and battery on J. W. Adams was called yesterday and after some difficulty in securing a jury, it commenced with 11 men, both sides having agreed to accept that number. The evidence was the same as we gave it at the time. It will be remembered that the colonel's wife and Adams had trouble over an account and that after she had called him hard names, he applied a rough one to her. On learning of it, Col. Welch armed himself with a pistol and finding Adams, beat him with a cane after he had drawn a pistol on him and Adams had protested that he was unarmed. Judge R. J. Breckinridge, of Danville, and Col. Hill and R. C. Warren defended the colonel, the two former making very strong speeches for him, appealing for vindication of the act, which any brave man could not have done less than performed, while County Attorney J. B. Paxton and Commonwealth's Attorney J. S. Owsley, Jr., upheld the cause of the Commonwealth with vigor. Mr. Owsley made a very earnest appeal for a fine in keeping with the gravity of the offense and he was complimented for his impartial prosecution. The jury after a short retirement returned a verdict for \$25. The juries were finally discharged yesterday, but the court will be open the rest of the week for the filing of bills of exception and equity work.

SOME boys have been guilty of bathing in the reservoir and Manager J. W. Hayden will make it hot for them if the offense is repeated. The Germans of the Ottenheim section celebrated the 4th by a general picnic. Abundant eatables and drinkables were on hand. THE Glorious Fourth was a barren ideal here. Every Negro who could get to Danville went there and everybody else who had anything to do did it the same as any other day. Stanford people show their patriotism by work, not by play. THE hottest of hot waves has engulfed us for several days, Saturday and Sunday being the hottest that have been remembered in these parts for many years. The mercury went up to 100 and the heat was almost unbearable, though no fatalities occurred. Many are reported, however, over the country. A nice rain fell yesterday morning, reducing the heat, but it is still uncomfortably warm. O. K. NOW.—Walter Carter, the K. C. brakeman, who was to have been married two weeks ago but who was prevented by his failure to secure a divorce, was to have had his fondest hopes realized yesterday by marrying Miss Olive Kidwell, of the Paint Lick section. The divorce was finally secured and believing that man should not live alone, Mr. Carter lost no time in securing a helpmeet. He went out as usual on his run yesterday morning and the ceremony was to have been said during his lay-over at Richmond. THE Sunday-school picnic, which was participated in by all the churches but the Methodist, was attended by several hundred pupils and teachers and the day proved one of general recreation and enjoyment. Tate's avenue was alive with children and they amused themselves by sending up balloons, using the numerous swings provided for them and in many other ways. The dinner on the grounds was a real feast and there was enough left to supply all the little negroes around town with that long-felt want—a full meal each. The Stanford Band discoursed good music at intervals and the preachers and teachers did all in their power to make the day a bright spot in the memories of the coming men and women of the country. FOR ANOTHER ELECTION.—In response to our inquiry yesterday, Col. W. G. Welch expressed the opinion that the turnpike election held last November was valid, but admitted that if the court of appeals followed its decision in a similar election case, which he didn't believe it would, it would be pronounced invalid. To remove all doubts, however, so that their can be no question about the validity of the bonds, which would make capitalists' shy of them, he is in favor of a re-submission of the question, as it can cause no delay in the execution of the popular will and will settle the matter fully and finally. There ought to be no politics in such a suggestion as that. Every man who has the good of his country at heart should divert the question of everything, but a desire to do the best for the public good in the premises. Come and hear Hon. R. C. Warren on the subject county court day. Gov. Worthington has pardoned R. T. Jordan, of Mercer county, who was sent up in 1896 for five years for manslaughter. We learn the killing was under the most unmitigating circumstances and there is absolutely no grounds for executive interference.

Superior Disc Drill.

Stanford, Ky., Apr. 18, '97.

HIGGINS & MCKINNEY, Sirs:—The Superior Disc Drill has the proper name. I used one last season, '96. It will sow the fifth-est land to perfection. By using it I saved 75 cents per day hand hire and did the work decidedly better than could have been done with either the plow or drag drill.

Respectfully, B. G. Good.

MESSRS. HIGGINS & MCKINNEY, Gentlemen:—The Superior Disc Drill I bought of you last year is the best drill I have ever seen. I have used the Kentucky Drugg Drill, the McSherry Drugg Drill and other drills, but I pronounce the Superior Disc Drill THE SUPERIOR to all of them. I used it in all kinds of land, grassy, rough, &c., and am well satisfied with it and now have fine prospects for a good wheat crop. My wheat was well put in and there was less uncovered wheat than I ever saw after any drill.
